

Programs for New
Club Study Year
Distributed Here

MARION club women are turning their thoughts towards the opening of another study year early in October. Programs have been completed by many of the program chairman, and have been distributed, attractive calendars inviting the interest of every clubwoman.

Among the clubs in the Marion County Federation of Women's clubs whose programs have been completed and distributed are the Advance club, the All Arts club of Prospect, Bay View club, Dolphin club, Literature Study club, Guest club, Sesame club, Marion Sorority club and the Tuesday Study club.

The approach of September also brings with it a quickening of plans for the Central district federation convention here Oct. 13-14, for which a committee all ready is planning a program.

Centennials

It seems such a pity that we can celebrate centennials only once every 100 years, they're such heaps of fun. The town takes on an air of abandon and everybody seems to be trying to live up to the well-known signs by making everyone feel at home. We joined with our Galion neighbors for a part of their birthday celebration this week and is also the royal hostess. Of course we felt rather big-nister minded about it, having celebrated our own centennial not so long ago but we did try to conceal our "we know how you feel" expression and (we may be fooling nobody but ourselves) got away with it. Everyone had a perfectly wonderful time and outside of knowing Billie and Mary's last names and shaking hands with them, we found ourselves just as interested in knowing when they came, how long they were going to stay and who else came with them. Of course we couldn't just say whether they had changed so much or not, but we were interested in hearing what the others thought about it. Anyway it was great time for everybody and maybe when our ship comes in, we'll go in for centennials in a big way.

Gadgets
HAVE you a little roll your own gadget in your home? If not you still have shortly, that is, if you are an indigant. There are those who view them with regret for they have stolen the one chance of the expert of a few decades ago to stage a comeback. Some folks still remember, with what a mixture of awe and admiration they watched the village champ roll 'em with one hand and never lose a puff.

The Zither Era
DO you remember the first time you powdered your nose with real honest to goodness face powder? You were really quite grown up and there was much ado about it in the family as to whether or not it was the thing for you to do. Things really happened around about that time, you had goss and darts in your dresses, high-heeled shoes took you out of the juvenile spring-heeled class and you graduated from the pigtail era to school with a big black taffeta bow pinned on with a hatpin or did your locks in a figure eight. Well anyway, the picture seemed to fit in with the rest of those mandolin and other days.

4-Game Softball Schedule at Lincoln Park Sunday

CLASSY FIELD GOES INTO THIRD DAY OF TOURNAMENT PLAY

Chatter Outdoor Ads of Lima, Three Marion Teams Play Tomorrow.

Beck's Barbers of Findlay vs. Marion All-Stars at 1 p. m. Jenner's Lunch of Marion vs. Farmers' club of Marion county at 3 p. m. Chatter Outdoor Ads of Lima vs. Melchior Rubber Co. of Ashland at 5 p. m. Berry-U-Wel Grocers of Marion vs. winners of Beck's Barbers-Marion All-Stars game at 4 p. m.

An all-star program of recreation baseball. That's the main for fans who want their way to Lincoln park Sunday afternoon for the third day's competition in the Central Ohio recreation baseball tournament. Not a dull moment in the afternoon has been the slogan of the management in the previous two days of play and how well this has been carried out is better indicated by the way sports fans continue to patronize the park each Sunday than in any other way. Every game played thus far has been chock full of thrills and fast plays. Tomorrow will be no exception.

Workmen are busy again today preparing the playing field for Sunday. Players and spectators alike have been almost unanimous in their praise of the excellent condition of the diamond in former games and the same excellent condition is assured for Sunday's games.

Fans will welcome the opportunity Sunday to witness in action for the second time the classy Chatter Outdoor Ads of Lima. This team made a decided hit with spectators last Sunday and will undoubtedly attract considerable following when it opposes the Melchior Rubber Co. of Ashland tomorrow. Sunday will also afford an opportunity for fans to judge if any Marion business possesses sufficient strength to better its way to the state for a short at the tourney title. The Jenner's Lunch and Berry-U-Wel firms are the only ones who appear to have a chance of doing this and Sunday will probably reveal which of these possesses the strongest lineup. Bring on the teams. Everything is set for big day of the biggest softball tournament ever staged in this district of the state.

BY BOB KIRKPATRICK

Several inquiries have been made of this department lately concerning the industrial league games that were scheduled and never played. There are four games, the last on the league schedule, which have not been played.

These games will be played. As it stands right now three of them will be played next Thursday at 6 p. m. The C. D. & M. Erie Roundhouse game will not be played until after the Little World's series but it will be played as far as is known now. The three games scheduled for Thursday of next week are Silk Mill vs. Shovel A. A. at 4 p. m. S. Fairfield vs. C. & O. at Lincoln, and Gasco club vs. Huber at McKinley.

The "cellar championship" battle between the Epworth Sodas and the Lutherans is on the books for Tuesday, with Little World's series encounter scheduled for Monday, Wednesday and Friday. All this of course, will take place unless Jupiter Flavors decides otherwise by making the playing fields with rain. On Monday the Epworths will play the Lutherans in a game which will eliminate one of the two from the series. On Wednesday C. D. & M. will clash with the Erie and when that is over one of these two will have taken its first World's series leading. On Friday the winner of the Monday game will play the winner of the Wednesday game. Figure out the rest of it yourself. It's getting too complicated. The series will continue until three of the four entries have been beaten twice.

Softball fans who wish to compare the game in Marion with that played in the Marion county leagues will have a good opportunity today if they will make the jaunt to the Shovel Athletic field on Lincoln avenue about 6:00 p. m.

Two games of the county Little World's series are slated for there at this time, one on No. 1 and one on No. 2 diamond. Pleasant will clash with Waldo in one game and Caledonia will meet Kirkpatrick in the other. Pleasant and Waldo are winners of one series game so far and the other two have been defeated once. Pleasant defeated Caledonia 5-3 in the play-off of a tie game Thursday.

Joe Shaw, former Southern California guard, will play with the Chicago Cardinals this year.

ADVANCE BATTALION IN PRACTICE ROUNDS AT BEVERLY COURSE

High Winds Hamper Players Testing Layout of American Amateur Tourney.

By The Associated Press. CHICAGO, Aug. 29.—The advance battalion of the army of 150 players who will march over the greens and fairways of the Beverly club when the thirty-fifth United States Amateur golf tournament begins Monday satisfied itself today in sampling the course.

Those who battled high winds yesterday discovered that the Beverly bunkers and sandtraps might prove formidable handicaps to next week's play at least, with the miniature golf sweeping the landscape into strange shapes and twisting many a drive and iron shot far out of line. The hazards did strange things to otherwise expert contestants.

In fact the winds were so disconcerting to several players during their trial rounds yesterday that they merely bagged their sticks and went home without bothering to post their scores.

William Lawson Little Jr., the modest San Franciscan who told Bobby Jones in 1929 that he would have eliminated him if Johnny Goodman hadn't, achieved the best round of the day, a 73, two over par.

George Voight, the New star who waited until he was almost 30 before grabbing at laurels, produced the next best, a 74 Dr. G. F. Williams of Portland, Ore., the dentist, took a casual 77, while Rusty Martin of Bloomer, held himself to 78.

CHICAGO, Aug. 29.—The Grand American handicap championship is being contested in Ohio again today, the first time a Buckeye marksman has won the title since 1928.

The Rev. Garrison Roebuck, a United Brothers minister of McClure, O., turned the trick yesterday in the classic of the annual American trapshooters association tournament.

Breaking 94 out of 100 targets.

DR. MILLER SIXTH

Shooting 22 birds in a five-way shoot-off Dr. R. D. Miller of 248 north Grand avenue finished in sixth place in the Grand American handicap event of the American Trapshooters association. Dr. Miller was tied with four others for fourth place before the shoot-off. All of the five had a score of 85 in the regular shoot.

from the 17-yard line, Roebuck tied with Fred Harlow of Newark, N. J., and R. F. Williams of Greenville, O., and then shattered 94 of 100 targets in the shoot-off to win.

Harlow, grand American champion in 1908, found the going too hard and had to be satisfied with third place. Williams fell three short of Roebuck's mark for second place.

Considered a "dark horse," the minister came down the home stretch needing 23 of the last 25 targets to tie Harlow and Williams, who already had finished his with one needed him better than \$1000 in cash prizes and trophies.

Rufus King, 15, of Wichita Falls, Tex., who Roebuck succeeded to the throne, finished far down the list with an 82. A broken right foot and a four-yard handicap proved too much for him.

Miss Jeanette Jay of Waverly, Ia., winner of the North American women's championship, earlier in the week, led the women shooters with a 52.

3 MORE VICTIMS

Smuggly Made Opponents in Exhibition Fights at Vancouver.

By The Associated Press. VANCOUVER, B. C., Aug. 29.—Jack Dempsey, former heavyweight champion, knocked out Big Tom Sawyer, Vancouver heavyweight, in one minute and 15 seconds and then took on two other fighters in a boxing exhibition here last night.

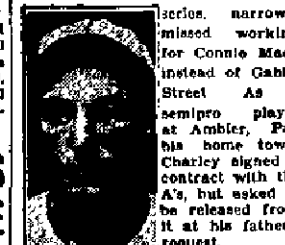

Sawyer ripped in with both hands, but Dempsey came back with left hooks to the chin and rights to the body and the Vancouver man went sprawling for the count.

The next opponent, "Tiny" Lamar, Tacoma heavyweight, lasted one round, but was knocked down twice for counts of eight and five.

Del Wolfe of Bellingham, Wash., went two rounds, landing one heavy right to Dempsey's head which apparently failed to shake Dempsey. Dempsey was cowering around with his man in the last minute.

A's Just Missed Card Shortstop

Charley Gelbert, brilliant young Cardinal shortstop, whose fielding was outstanding in the 1930 world's series, narrowly missed working for Connie Mack.

As a semipro player at Ambler, Pa., his home town, Charley signed a contract with the A's, but asked to be released from it at his father's request.

Following his graduation from Lebanon Valley college, where he won athletic honors, Gelbert entered professional baseball as a first baseman and outfielder in the old Tri-State league.

SAINTS BOOSTS LEAD IN ASSOCIATION RACE

"Little World Series" To Open at St. Paul on Wednesday, Sept. 30.

By The Associated Press. CHICAGO, Aug. 29.—The "little world series" will open on the home lot of the American association pennant winner, undoubtedly St. Paul, on Wednesday, Sept. 30, and continue there for four games before moving into International league territory, President Thomas J. Hickey of the American association said today.

Under the present plans, games between the American association and International league pennant winners will be played at St. Paul Wednesday and Thursday, Sept. 30, and Oct. 1, with a rest on Friday and two more games Saturday and Sunday. In case of rain on Wednesday or Thursday, a game would be played Friday. After Sunday, the teams will move to the lot of the International league champion.

There wasn't much doubt as to St. Paul's lease on the flag today, although the pennant battle in the International league was not decided. The Saints hosted their first place margin to 13½ games yesterday by defeating Toledo, 5 to 3, while the second place Kansas City Blues split a doubleheader with Louisville, winning the first game, 2 to 0 and dropping the nightcap, 7 to 4.

Milwaukee crowded closer to the third place Indianapolis club yesterday by trimming the Indians, 3 to 2, in the opening of their series at Milwaukee.

The Columbus-Minneapolis game was called off because of cold weather.

PLAN TOURNAMENT

Golf Matches Ann. Scheduled for Country Club Contest.

GALION, Aug. 29.—Plans have been completed for a ladies' handicapped tournament to be played next week at the Galion Country Club. The following pairings have been announced: Mrs. R. E. Boyd with a handicap of 19 will play Mrs. O. L. Smith with a handicap of 20.

Mrs. M. D. S. Boyd, 20 handicap, Mrs. C. K. Cunningham, 16, and Mrs. L. C. Goard, 21; Mrs. Paul Wilson, 28, and Mrs. Harry Paul, 22; Mrs. Henry Talmadge, 23, and Mrs. U. E. Campbell, 13; Mrs. D. C. Talbot, 21, and Mrs. H. F. Pico, 14.

The finale for the club championship will be played Sunday between Arthur "Pete" Evans and L. E. Lutz with a 36-hole match. The finals of class B flight will also be played Sunday between Carl Boehm and Paul Wilson.

Keeps Up Record.

ASHLEY, Aug. 29.—Adico Tramp, young sorrel gelding owned by James Worthing of this place, kept up his splendid average when he took three straight heats in the 2 1/2 pace at the Mt. Vernon fair Thursday afternoon. The fastest time was 2:14.4. Petty Fount of Ashley was the driver. This horse has won the three heats in every race he has entered this season.

Macos, Ga., will probably make a strong effort to land the franchise now held by Knoxville, Tenn., in the Southern baseball association.

GROVE MAY ENTER WORLD SERIES

Connie Mack's Southpaw Star Likely To Pass 30 Victory Mark Before Clash for 1931 Baseball Championship

WITH ALL-TIME PERCENTAGE MARK

By The Associated Press. NEW YORK.—It looks like the Cards and the Athletics again this year.

And when Gabby Street marches the Red Birds out late in September to start the world's series with the championship Philadelphia club, the chances are good they'll have to face a pitcher with the greatest winning percentage of all time.

The hurler is none other than Robert Moses Grove, fireball southpaw. But whether Lefty manages to better the winning percentage record of .872 set by "Smoky Joe" Wood in 1912 with the Boston Red Sox, it is certain he'll be conceded the greatest hurler of the year.

For no other reason, Grove's 16 straight victories will take care of that. Before this great streak was ended at St. Louis, when Lefty dropped a tough 1-0 decision, he'd lost only two games, and both of those by the narrowest sort of margins.

Early in the season Grove lost a 2-1 game to the Washington Senators, and after winning seven straight he was credited with losing a game to Chicago when he went in as a reliever. But for that game Grove's winning streak would have been 23, exactly four better than the modern record for the majors set by Rube Marquard with the New York Giants in 1912.

Grove's winning percentage was .693 with 25 games won and three lost, after young Dick Coffman of the Browns beat him by shutting out the Athletics for the first time this season.

Wood won 34

Wood's record of .872 was turned in on the basis of 34 games won and five lost, and while the chances are practically non-existent that the gangling left-hander will reach that victory total, he does hope to win 30 games. No left-hander has ever achieved that in the majors.

GROVE'S 16 STRAIGHT VICTORIES

XX DID NOT FINISH GAME
XX WENT IN AS RELIEF PITCHER

LEFTY GROVE

Grove's development in recent years as the leading pitcher of the majors, is generally attributed by the ball players to a better control of his fast ball. Connie Mack, however, insists that Grove's curve is almost equally as effective.

This campaign is Grove's 12th in organized baseball. He pitched a few games with Martinsburg in the Blue Ridge league in 1920, and was picked up by the Baltimore Orioles. He was with the International

league club for five seasons and went to the Athletics in 1925.

Will He Burn Out?

Street and Mack not unreasonably are at odds as to Grove's possible worth in the world's series. The "Old Sarge" ventures that Grove will be burned out by the time of the world's series from trying to win 30 games this year.

Mack, on the other hand, claims Lefty thrives on work. Grove, he says, has an easy sidarm delivery that takes little out of him.

Gilbert English, third sacker of the Durham, N. C. club has been sold to the New York Giants.

INJURIES AGAIN HIT CAMP OF A'S; HAAS OUT REST OF YEAR

Mackmen Take One from Yanks 5-4; Cleveland Beats St. Louis Browns.

BY GAYLE TALBOT

Associated Press Sports Writer. Notwithstanding the comfortable lead enjoyed by his Philadelphia Athletics, things are breaking none too well these days for Connie Mack.

"Mule" Haas, dependable center-fielder, is lost for the remainder of the season. A wrist, broken several weeks ago, has failed to mend properly.

The champions have been playing a fortnight with only one of their regular outfielders, Bing Miller, and with three fourths of their regular infield. Al Simmons, slugging left gardener, has been laid up with a sprained ankle, and Joe Doley, shortstop, has been able to see little action.

Mickey Cochrane, peppery little catcher, who was given a short vacation when he complained of dizzy spells during the team's recent western tour, returned to the lineup yesterday.

He banded three hits to help the A's take one from the New York Yankees, 5 to 4.

For the second straight day the Cleveland Indians hammered out a one-sided triumph over the luckless St. Louis Browns, 13 to 1. Mel Harder yielded only four hits, two each by Goose Goslin and Tom Jenkins while his teammates made 16 off Gray and Kliney.

The Washington Senators and Boston Red Sox tried hard to supply another American league game but were forced to let the rain have its way after three innings, with the Sox leading 3 to 0.

The National league's lone engagement served merely to stretch the St. Louis Cardinals' lead over the field. After going scoreless for six innings, the Red Birds got to Larry French for two runs in the seventh and four more in the eighth to defeat the Pittsburgh Pirates 6 to 4.

CHANGE DATE FOR BUCYRUS PROGRAM

Weather Causes Postponement of Closing Activities at Playground.

BUCYRUS, Aug. 29.—Because of inclement weather conditions, the program and display by children at Harmon playground, marking the close of the season, were postponed last night and weather permitting will be held Monday afternoon and evening.

Activities scheduled for Monday afternoon will include water and boat races, a pet show and art exhibit, which will include display of articles carved from soap, lanterns and booklets made by the children during the summer months.

The tennis tournament in both doubles and singles, for which prizes are being offered by the playground commission, will be played early Monday evening after which a lantern parade and singing by the children and music by the Acolian String ensemble will be presented.

The playground season will close Monday night. Playground supervisors this year were Miss Virtue Winters and Miss Isabelle Loomis.

More than 100 children are expected to take part in the closing events.

2 Contractors Share in County Road Work

Upper Sandusky Construction Company, S. M. Wooley of Marion lowest bidders; Retreading and Surfacing Treating To Cost \$30,412.

Contracts for the improvement of 50 miles of Marion county roads by retreading and surface treating were let to the Upper Sandusky Construction Co. of Upper Sandusky and S. M. Wooley of Marion by the county commissioners yesterday afternoon.

Work estimated to cost \$40,300.60 was let for \$30,412.55. Contract for the surface treatment of 40.54 miles of county roads was let to the Upper Sandusky Construction Co. at its bid of \$2,561.74. This company was also given contracts to construct the Lyons road in Marion township for \$6,828.25 and the Boundary road in Prospect township for \$4,355.29.

The Lyons project is 2.51 miles long and will be retreaded to a width of 26 feet. The Boundary road will be retreaded to a width of 26 feet for 1.65 miles and a 4.32 mile section of the Morris-Brush Ridge-Kirkpatrick road, in Grand Prairie and Salt Rock townships, was let to S. M. Wooley of Marion at his bid of \$10,767.20.

By a "gentlemen's agreement" with the Upper Sandusky Construction Co., the contractors agreed that neither job will be used so far as possible in all the work, which is expected to be done between Sept. 10 and Nov. 1.

The surface treating will require the use of 17,968 gallons of coal tar, 27,810 gallons of asphalt emulsion, 33,023 gallons of medium tar and 6,900 gallons of liquid asphalt. In every instance, the contract was let to the lowest bidder. Each project, the bids placed on each, and the amount of each bid follow:

Lyons road retread—Upper Sandusky Construction Co., \$6,828.25; Herman B. Irey of Marion, \$11,288.13.

REPUBLICANS NAME TICKET AT CAUCUS

Asa McCrory is choice for Mayor at LaRue Meeting.

Special to The Star—LA RUE, Aug. 22.—The Republican caucus of the village of LaRue, held last night, named the following ticket for village officers: Mayor, Asa McCrory; clerk, H. H. Bailey; treasurer, C. C. Holliday; councilman, Homer Allen, Carl Smith, E. M. Long, D. E. Jones, Harry Edgely and Ross Decker; marshal, Edd Williams. Management trustees named were C. W. Rodgers, Ralph Carey and John Scranton; constable, Edd Williams; justice of peace, W. P. LaRue; school board, Don Clements and Rev. J. W. Horne.

Charles Husey who suffered a cerebral hemorrhage while on duty as a policeman with the LaRue police, died last night at his home in a critical condition. Mr. Husey sustained cuts and bruises about his head when he became unconscious and fell from the attic of the second floor.

26 ARE TAGGED BY POLICEMEN HERE

Eight out-of-town offenders were included in the 26 traffic violators to be given tags by the police this week, according to the traffic blotter in municipal court. One of these, a resident of Green Camp who was tagged when he parked on Canby court, was excused. The court was held at the home of Mrs. J. W. Horne.

Seventeen of the violations were over time parking, three were for crossing red lights, three for parking in alleys and three for parking in no-parking zones.

CONDUCT RITES

Funeral of Union County Resident Held Friday.

MARYSVILLE, Aug. 22.—Mrs. Martha Pannacker, lifelong resident of Jerome township, died at the home of her daughter, Mrs. Hannah Shover of Jerome, of age and infirmities. She was in her eighty-seventh year. Funeral services were held Friday at the home of Mrs. Shover and interment was made in the Jerome cemetery.

The state department of education has notified County School Superintendent U. A. Tenney that Leeburg and Magnetic Springs schools will each be allowed to have four teachers in the grades.

J. W. Harper of Plain City was arrested Friday afternoon on a charge of giving a worthless check to Dwight Weidman drawn on the Union Banking Co. of Marysville where he had no funds.

Nine persons took the examinations for teachers' certificates at the West school building Friday. The examiners were W. E. Bowman of Richmond, J. A. Tenney of Unionville Center and Cletus Tossy of Fairbairn. This was the last teachers' examination this year.

by C. Bascam Slomp, national committee chairman for Virginia, after the late James W. Good, western campaign manager for the Republican National Committee, during the 1928 drive, had written Jameson that Slomp had in mind an independent organization that Good wished Jameson would help Slomp with.

Other evidence in the record traced this \$65,300 through the eight bank accounts maintained by the bishop during the campaign. Basil Minny, a committee investigator, put into the record charts ascertaining that the churchman diverted many thousands of dollars to his personal accounts, used some of it to pay personal notes and to pay some of the beneficiaries of an estate for which he was the executor.

Shows Another Chart In his final appearance before the committee, Minny exhibited another chart which he said indicated that Bishop Cannon had been paid \$10,000 by the anti-Smith Democratic headquarters committee than he had loaned it.

Eugene L. Crawford, general secretary of the board of temperance and social service of the Methodist Episcopal church, south, of which Bishop Cannon is chairman, said several hundred dollars of board money had been loaned the bishop prior to the Asheville conference but that it later had been repaid.

What action the committee will take toward Miss Burroughs and Peters, who identified himself as a minister, before refusing to testify, will not be determined until the committee meets again.

RETIRED FARMER, 65, DIES AT MARENGO

Notes for Royal T. Bennett To Be Held Monday at Home.

Special to The Star. CARDINGTON, Aug. 29.—Royal T. Bennett, 65, retired farmer of Cardington, died instantly yesterday at 9 p. m. of a self-inflicted gunshot wound at his home near Marengo. Dependence over his ill health is believed to have prompted the deed.

Mr. Bennett had been confined to his home following a stroke of paralysis which he suffered about three years ago. Mr. Bennett was born March 12, 1871 and had resided in Morrow county his entire life. He is survived by his widow, Mrs. Emma Bennett and two sons, Erwin Bennett of Marengo and Budd Bennett of Centerburg.

Funeral services will be held Monday at 2 p. m. at the home, Rev. Long of Centerburg officiating. Interment will be made in the Bloomfield cemetery.

Patient Found Dead.

By The Associated Press. GALLIPOLIS, O., Aug. 29.—The body of Charles Tyrrell, 19, Bowling Green, O., patient at Ohio hospital for epileptics here, missing since July 27, was found today in a clump of bushes three miles north of the institution. Coroner James H. Hanson said the victim had died from exhaustion.

east. Yesterday the houses that committed this "crime against union labor" were bombed, and two children were injured. There is no proof that the Chicago union had anything to do with the bombing.

If they did have anything to do with it, and if there should be proof of it, that would be bad for the Chicago union, and for other unions. Pushing racketeer-gangster methods to the extent of bombing theaters filled with women and children is something that Mr. Chicago probably would not approve.

IN NEW YORK, public schools wisely, probably will postpone opening day because of influenza-paralysis.

"When in doubt, refrain," is sound advice. But how children get influenza paralysis nobody knows exactly. Fortunately, it is proved that a serum, made from the blood of patients who have recovered—and the patients may be monkeys—will save the children's lives.

Dealing with such a mysterious disease, you are reminded of Upton Sinclair's anecdote about the iron down town, determined not to get yellow fever. He stood outside the store until everybody had left it then entered to do his purchasing.

SCHOOLS WILL OPEN FOR REGISTRATION

Junior and Senior High School Offices Will Make Out Schedules.

Senior and junior high school students not properly registered should do so next week. Superintendent George A. Bowman announced today. Principals' offices in the Harding High school, Central Junior High school, the Vernon Heights Junior high school and the new Junior High school at Belmont avenue and Chaffin road will be open for registration starting Monday. The three junior high schools will handle seventh, eighth and ninth grade pupils. Tenth, eleventh and twelfth year pupils should register at Harding High school.

Junior and senior high school pupils who did not register last spring are urged to do the registration cards at the proper building some time during the week between 2 and 3:30 p. m. except on Saturday. Pupils in the senior or junior high schools who have registered and wish to change their schedules must take care of this during the week before school opens, as no changes in schedules will be permitted after the opening of school except in emergency cases, the superintendent said.

Students to enter the seventh grade or any grade above who moved to the city during the summer should register at the proper building. All pupils in Marion schools last year filled out registration cards for the junior and senior high schools with the exception of a very few who were absent on registration days. The necessity to register falls only upon those who did not fill out registration cards last spring either because they were absent or because they did not live in the city at that time.

Elementary grade pupils are not affected by the registration. These pupils are asked to report at the proper building at the opening of school Sept. 8.

PIERSON ADMITS KILLING OF FOUR

Promises To Tell Police All Today; Says "I Did It"

were questioned in the county jail last night.

The bodies were found late yesterday. Police, informed by a boy that he had helped Pierson make a tunnel underneath the so-called garage, began digging in the cellar. In the slime and mud of the sewer they found the bodies of the women. Within an hour they had unearthed the bodies of the children, buried close together.

Neither, Girls Strangled An autopsy revealed that the woman and children had not eaten for at least 48 hours before they were slain. The examining physician said the woman and two girls apparently died by strangulation, the boy's skull was fractured twice, he had been struck with a hammer found buried with the bodies. Earlier in the day, the garage, which had been used as a wash, was searched. Bloodstains and what was said to be human hair were found. Trunks containing clothing of the woman and children also were discovered.

Pierson was taken to the garage, but though his stories conflicted, he said he maintained he knew nothing of the whereabouts of the missing family.

When informed the bodies had been found Pierson merely shrugged his shoulders and told Chief of Police C. O. Duckworth that he hadn't "anything to say."

Crowds gathering about the city jail when news of the finding of the bodies was circulated, prompted officers to remove Pierson to the county jail.

Pierson, a known Harry R. Powers, was arrested here Thursday at the request of Park Ridge, Ill. police. He admitted he knew Mrs. Elcher and that he was a frequent visitor "on pleasure trips" to Chicago. He said he last saw the widow as she boarded a train for Denver, Colo. some weeks ago. At that time, he said, she was accompanied by a man named Keger.

While he admitted his only business dealings with Mrs. Elcher were when he sold her home for her, police said he later admitted having given one of the children, Grete, a note to her mother's bank in Chicago, requesting the balance of Mrs. Elcher's account. With it, he said, he sent a blank check purporting to have been signed by Mrs. Elcher. The bank, however, refused the request.

Explaining his correspondence with women throughout the country through matrimonial agencies, Pierson was quoted as saying he wrote the women "just for fun," many such letters were found in his possession, police said.

Police said today that information obtained from persons living near where the bodies were found led them to believe that Mrs. Elcher was brought from Chicago and killed and that the slayer then returned to Chicago, obtained the three children and killed them here. The man wife, who is being held in the county jail, today said she believed he was innocent of the killings.

Elcher. I looked at the letters the children received and the writing was not hers. In the letters we were informed that Mrs. Elcher would not be able to return, but that Mr. Pierson would return and drive the children to her. He arrived on July 1. He remained overnight and at 11:30 the next morning he took the silverware and the children and drove away.

Mrs. Elcher was a widow whose husband, dead four years, left her a comfortable home, three children, and an income. She grew to speak of having admirers, her friends said, but none appeared until June 22.

This stranger was Pierson whom Mrs. Elcher described as "just an old friend of the family." Stores Furniture After Pierson or Powers returned to the home a third time, he started storing the house furnishings in a garage. Questioned by neighbors, he said the house had been sold and that Mrs. Elcher would not return. Chief Johnson heard vague rumors and investigated Pierson showed him papers in which, the officer said, Mrs. Elcher gave him an agent's power to dispose of the home.

Johnson asked Pierson to drop in at the police station the next day. This Pierson failed to do. It was then that Johnson broke into the garage and found, among Mrs. Elcher's belongings, the letters which told of her romance with the West Virginia man. He subsequently swore out three kidnapping and one murder warrants for Powers.

Find Bones in Burned Cottage

By The Associated Press. CLARKSBURG, W. Va., Aug. 29.—Bones found in the ruins of a cottage, near where the bodies of a woman and three children were found yesterday, were to be turned over to the county coroner today to determine whether they were those of a human being. The bones were found by John Bird, of Northfork.

The bones were in the ruins of a cottage owned by the wife of Harry P. Powers, alias Cornelius O. Pierson, held here in connection with the killings discovered yesterday. The building was destroyed by fire last spring. It was near Pierson's garage, where the woman and three children apparently were slain.

The bones that were to be turned over to the coroner apparently were those of a human wrist and finger. Eyed and others who saw them said.

Duckworth said residents of the district in Clarksburg where the

GERMAN AIR PILOT LANDS IN QUEBEC

Captain Von Gronow Crosses Atlantic Via Greenland South. By The Associated Press. OTTAWA, Aug. 29.—Captain Von Gronow, German airplane pilot, apparently was somewhere in the northern wilds of Quebec today, enroute from Germany to the United States by way of Greenland.

Radio messages received by the government station at Resolution, Hudson straits, north of Labrador, indicated he arrived unexpectedly over the American continent yesterday from Godhavn, Greenland. He planned to make his first stop on the American continent at Ploverville, an Eskimo village in northern Quebec.

He left Westerland, Germany, on Aug. 8, with the determination to fly over the ice wastes of Greenland and thus be the first to follow such a course from Europe to the United States. His destination is Chicago.

GOES BACK TO OLD AUTO LAW

Clark of Courts Filing Bills of Sale: Association Plans Referendum.

While Everett R. Grigsby, clerk of courts, began filing automobile registrations on bills of sale this morning, certain Ohio finance companies were questioning the status of the Pringle law resulting certificates of title for automobiles, which was held ineffective by the state supreme court Thursday.

The clerk of courts received official notice that the Pringle law was in reality never effective in a telegram received late yesterday from Chalmers R. Wilson, state commissioner of motor vehicles. Under the law passed by the last legislature, and later repealed, certificates of title would have been issued on automobiles. The supreme court held the repealer was in effect; that the Pringle law had never reached the stage of enforcement and that the old bill of sale law remained in effect. The Ohio Association of Finance Companies, according to an Associated Press story from a Cincinnati source, had planned a referendum on the repealer, thereby permitting the voters to decide if the Pringle law was to remain on the statute books. Some doubt was expressed as to the legality of the referendum, but the association plans to go ahead with it until it is passed on by the courts.

The certificate of title plan of registering automobiles was in effect here 24 days, including yesterday.

8 EVENTS ON MODEL AIRPLANE PROGRAM

Air Cadets Will Sponsor Contest for Flying Planes Early in October.

A tentative schedule for a model airplane contest to be conducted by the American Air cadets early in October has been announced by the committee in charge. The list provides for eight events, including two for participants that fail to win prizes in the regular contest.

A ruling has been made that any entrant winning three first places will be given a handicap in subsequent events.

The first event is a time endurance test for small models capable of rising off the ground and with a rubber band motor not exceeding eight inches in length. Single-motored indoor models will be placed in the second and fourth events, which are 80 and 100 foot speed contests, respectively. The third event is also for small sailing models and requires that they be launched from an elevation not exceeding six feet.

All types of planes are to be entered in the fifth contest, which is an indoor endurance test. Launching elevation must not exceed six feet and the motors are limited to 15 inches in length. The sixth event is an indoor glider contest, with models to be launched in any manner.

Qualification trials will be held between events for the American Air Cadets merit badge and will be open to indoor models of all types. Ten seconds air flight will qualify the owner for a pilot badge.

A meeting of the cadets and all boys interested in aviation is scheduled for Sept. 12 at 8 p. m. at the American Legion dugout.

A ruling has been made that any entrant winning three first places will be given a handicap in subsequent events.

The first event is a time endurance test for small models capable of rising off the ground and with a rubber band motor not exceeding eight inches in length. Single-motored indoor models will be placed in the second and fourth events, which are 80 and 100 foot speed contests, respectively. The third event is also for small sailing models and requires that they be launched from an elevation not exceeding six feet.

All types of planes are to be entered in the fifth contest, which is an indoor endurance test. Launching elevation must not exceed six feet and the motors are limited to 15 inches in length. The sixth event is an indoor glider contest, with models to be launched in any manner.

Qualification trials will be held between events for the American Air Cadets merit badge and will be open to indoor models of all types. Ten seconds air flight will qualify the owner for a pilot badge.

A meeting of the cadets and all boys interested in aviation is scheduled for Sept. 12 at 8 p. m. at the American Legion dugout.

SEVEN DEALERS BID FOR COAL CONTRACT

Will Supply Fuel To West Hospital, Nurses' Home and Fire Stations.

Seven local coal dealers have submitted bids for the winter's coal for the City hospital, nurses' home and the three fire stations. It was announced today by Safety Director Dr. T. E. Senneca.

The bids have been tabulated and the contract will be awarded at a meeting of the board of control Monday. The specifications call for the delivery of approximately 250 tons of coal during the winter.

The bids ranged in price from \$2.00 to \$4.74, depending upon the quality of the coal. Those who submitted bids were: The Marion Lumber Co., with prices ranging from \$2.87 to \$4.40; the Marion Builders Supply Co., \$3.00 to \$4.40; Schuster & Schuster, \$4.30; Marion City Supply Co., \$3.00 to \$4.40; D. C. Gault, \$4.30; E. E. Patton & Son, \$3.80 to \$4.74; and the Marion County Farm bureau, \$3.00 to \$4.54.

J. H. MASON NAMED ORATOR OF CLASS

James H. Mason, former superintendent of Marion public schools and now superintendent of schools at Canton, was elected orator of a class of 37 candidates initiated Thursday by Stark county of the Ancient and Accepted Scottish Rite lodge, Valley of Canton, during the summer at Canton ending Thursday.

The class was named the John P. McCune class in honor of John P. McCune of Columbus, state deputy and representative of the supreme council. Degrees were presented to 120 during the reunion.

BUYS INTEREST IN LOCAL COMPANY

William Hamer of 418 Mary street, recently associated with the Squehanna Silk Mill Co., has purchased an interest in the Atlas Coal Co. at 519 West Center street. After Monday Hamer will become actively connected with the company.

MANY MODELS ARE OFFERED

Full Line of Paints, Varnishes
and Builders' Hardware
Also Handled.

The H. O. Crawbaugh Hardware
store, located at 113 North Main
street not only carries a complete
line of hardware, paints and
builders' supplies but handles a
number of well known cooking
and heating products as well.
Among the most famous of these
are Graff-Faultless furnaces, Cop-
per Clad ranges, Copper Clad twin-
tine super heaters, Grand gas
ranges, Florence oil stoves and
genuine Estate Heatrols.

Graff-Faultless Furnaces
The Graff-Faultless furnace is
backed by the 50 years experience
of the Graff Furnace Co. in de-
signing, manufacturing and dis-
tributing quality furnaces.

The Faultless "Series K" fur-
nace not only looks well but per-
forms well. This is a furnace
which has all the experience gained
in years of furnace manufac-
ture built into it and is one of the
finest examples of Graff engineer-
ing. It is manufactured to fill the
need for a furnace particularly
well adapted to burning efficiently
the harder types of fuels.

Faultless furnaces have a low
initial cost—are economical to
operate, besides having the writ-
ten guarantee of construction
which always accompanies each
furnace leaving the Graff Furnace
Co. plant.

When you buy a Faultless Fur-
nace it costs less and it will give
you more years of satisfactory
service than any other furnace at
anywhere near the price.

Copper Clad Ranges
A range for the housewife that
gives the utmost in service and
life the makers of the Copper-Clad
ranging range concentrated their
efforts to produce a range that
would give continued service and
comfort to the housewife.

They designed this range that
a minimum of cleaning should
keep it looking bright and new.
You will say they have succeed-
ed, once you look upon this "cook-
ing machine" with its smooth
surface, minus the usual pegs,
catches, hinges and dirt collec-
tors.

When buying a range, the buyer
should always remember that it is
not that rules ranges Rust from
the inside—rust that can't be
stopped except when the range is
made, and then only by plating
a sheet of pure copper between
the asbestos and the range body.
There is but one range in the
world lined with pure sheet cop-
per. This is the Copper Clad
Twin-Tine Super-Heater.

Copper-Clad's twin fine super-
heater is the ideal "above the floor
furnace." Due to its scientific de-
sign and efficient operation it has
won enthusiastic praise from lead-
ing heating engineers throughout
the country. In operation the super-
heater draws cold air from near the
floor, humidifies it, then rapidly
circulates it in an intensely heated
form throughout the entire house.
Every nook and corner is filled
with warm, healthful, moist air.
Good health and bodily comfort re-
quire that the air in the home be
kept properly "conditioned" and at
a normal uniform temperature.
Copper-clad's twin fine super-
heater does this.

INSTALLED FURNACE IN HOME

Above is pictured the home of Joseph B. Shaver at 204 East Church street. The furnace in this home was installed by the H. O. Crawbaugh Hardware store. Mr. Shaver is freight agent for the Pennsylvania Railroad here.

The Copper-clad heater looks like
a complete talking machine of the
newest and finest type. It is a
splendid piece of furniture har-
monizing perfectly with the pre-
sented day trend of interior decora-
tion.

Copper-clad's line of twin-tine
super-heaters consists of models to
fit every need and every purchase.

Grand Gas Ranges
Grand gas ranges embody beauty
of line and colors, efficiency, econ-
omy and durability.

Do not make the mistake of
thinking all ranges are alike. There
is as much difference in quality in
ranges as in furniture or automob-
iles. You prefer for your dining
room a buffet of fine wood, finely
finished and smoothly put together,
with smooth working drawers and
doors. Such a piece indicates qual-
ity in material and workmanship.
Like a small buffet for a small din-
ing room it is built small and com-
pact for the smaller kitchens, but
the quality is there.

The color trims available in the
Grand Gas Range are french gray,
pearl gray, old ivory and certain
two-tone combinations of them
with jade green and aure blue.

The Vogue, a new series of
Grand gas ranges has an auto-
matic lighting system and comes in
beautiful console models. The col-
ors include venetian marble, old
ivory, black and white trim,
cream enamel body with green and
ivory marble trim. All Grand
ranges are completely insulated,
have large size cooking tops, full
size ovens with heat control. They
are considered by buyers who like
nice things as America's most
beautiful gas ranges.

Florence Oil Stoves
For the home without the con-
venience of gas the Crawbaugh
Hardware store carries the long
famous line of Florence oil stoves.
The new, up-to-date, Florence
oil stoves are the result of more
than half a century of develop-
ments for the Florence Stove Co.
has the distinction of being the
oldest manufacturer of oil stoves
in America.

The principle of the Florence

oil stove is focused heat which
has won success throughout the
nation and in many foreign lands.
In construction, quality of mate-
rials and beauty of finish, Florence
products hold true to the best
traditions of craftsmanship.

Genuine Estate Heatrols

An Estate Heatrol brings mod-
ern furniture beauty and whole
home furnace comfort to your
home. It heats every room, up-
stairs and down, and will most effi-

ciently and economically solve your
heating problem.

When in need of a furnace, stove,
range or heater of any kind the H.
O. Crawbaugh Hardware store can
supply your particular need.

Mr. Crawbaugh says, "when you
make a purchase from us, regard-
less of what that purchase may be,
you can be assured that we stand
behind the merchandise from every
angle. It must be right or we will
make it right."

Building, Loan Leaders To Meet in Philadelphia

When several hundred execu-
tives of Ohio building, loan and
savings companies go to Philadel-
phia, Aug. 11-14, to attend the sec-
ond International congress of
building societies and building and
loan companies, they will find
men engaged in similar home
financing activities from England,
Germany, France, Austria, Poland,
Australia, Switzerland, and New
Zealand.

Withstand Deflation
Advanced reports on building
and loan conditions in foreign
countries indicate that the busi-
ness of financing homes has been
one of the few to withstand the
10-year post war deflation. In
England building associations
gained more in assets in the last
five years than in any other simi-
lar period in their history.

Thus it may be seen, according
to James A. Levine, executive ec-
onomist of the Ohio Building Asso-
ciation, that building and
loan practices devised in England,
150 years ago, brought to this
country 30 years later and to Ohio
in 1887, remain one of the few un-
changed businesses during an age
of swift financial changes.

At the Philadelphia meeting, the
one hundredth anniversary of the
founding of the building, loan and
savings company movement in
America will find the original

tenets of building and loan opera-
tions still surviving. In Ohio, these
institutions, now have assets in ex-
cess of \$1,250,000,000 proof enough
that the conservative practices in
which they were pioneers in 1867
are still practical today.

Ohio will play a big part at
Philadelphia at the joint meeting
of the United States Building and
Loan League and the International
congress of building societies. L.
P. McCullough of Columbus, is
Ohio's delegate to the international
meeting. Delegates at large in
Ohio to the building and loan con-
vention include James M. McKay
of Youngstown and Fred Tuke of
Cincinnati.

Obstacles on Program
Obstacles appearing on the pro-
gram include Mr. McCullough,
president of the largest institution
in Ohio, who will be America's
spokesman on the international
program featuring Sir Enoch Hill
of England, Frank F. McGuire of
Columbus, head of the state de-
partment of building and loan as-
sociations, Evan Schoenfeld, of
Cincinnati, and George Garber of
Lorain.

University of Wisconsin scient-
ists have increased the bone build-
ing qualities of goats' milk 2400
per cent by treating the animals
producing it with ultraviolet rays.

Manager of Company Urges
Builders To Take Advantage
of Savings Offered.
The Avenue Lumber and Supply
Co., located on Belmont street
at the Piquette railroad,
are exclusive dealers for all
lumber and building materials.
This lowest lumber yard is alive
to the needs of the public and
handling everything in the home
building line. If it is to the home
they have it. Lumber, roofing,
paints and builders hardware sold
by this concern have always been
of higher quality; products that
can be guaranteed. Each one
stamped with the manufacturer's
name showing that he also stands
back of it.
Good stock, well displayed, con-
scientious sales service backed by a
knowledge of the products and
prompt delivery are standards to
which they closely adhere.
A visit to the Avenue Lumber &
Supply Co. would be of interest
especially to home builders or home
owners. A greater part of the of-
fice building is devoted to display
which effects a quick, easy choice
of wares. Large stock of "Enter-
prise" paints, varnishes and other
products of similar nature are
right out where they may be seen.
John-Manville shingles, durable
well-styled builders hardware,
Weather Best stained shingle com-
binations quickly catch the eye.
Garage and barn door fixtures,
notch back steel fence posts as well
as large assortments of paint
brushes, putty knives, odds and
ends of building specialties are at
hand.
Lumber Not Neglected
Such a variety of items in an of-
fice sales room is becoming ever
more typical of retail lumber com-
panies. All lumber and supplies
are sheltered from the weather by
huge storage sheds. The main shed
is over 450 feet in length and three
decks high.
Your home should come first ac-
cording to F. M. Broben, manager
of the company. Today your lot-
ter will buy over twice as much
lumber and building material than
it would in 1920. Since prices are
at this new low level it is advis-
able for those who have considered
building, modernizing, enlarging or
repairing to do so this season," he
said.
Our storage shed is devoted to
numerous items which will provide
for various needs of the farmer.
Notch back steel posts, fence posts
of cedar or creosote dipped yellow
pine, weather-proof brooder houses
of convenient design and lasting
construction, barn paint, overhead
doors, handbar tracks, hangers
and other equipment of benefit to
the farmer.
Insulation for Homes
Balsam-Wool is a true insulation
for the home and should stop that
costly heat waste through your
roof.
Balsam-Wool in thick, flexible,
blanket-like strips, tucks in be-
tween the rafters or ceiling joists
as only a flexible insulation can.
It fits snug—seals every crack and
crevice wherever costly furnace
heat can escape.
In addition to its high efficiency,
flexibility and thickness, Balsam-
Wood is fire-resistant, waterproof,
wind-proof, chemically treated
against vermin, practically pos-
ture proof and durable.

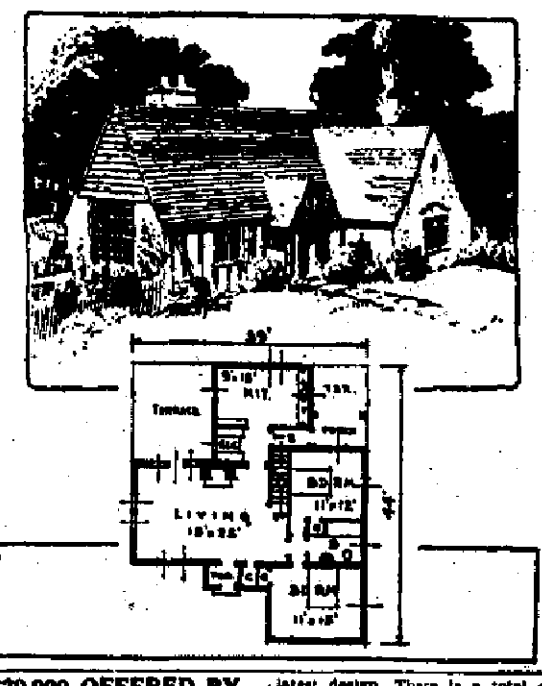

SUPPLIES LUMBER FOR HOUSE

The new home pictured here is located two and one-half miles south of here on the Marion-Dela-
ware road. It is the residence of John Bahr. All lumber and builders' hardware was supplied by the
Avenue Lumber and Supply Co. Arthur Seely was the contractor.

SUNNY LIVING ROOM IN BUNGALOW

The low lines and snug character
of this bungalow give it an instant
appeal, while comfort is apparent
in the plan.
Stucco and whitewashed brick
are used for the walls and the
whitewashed brick chimney is fin-
ished off with dark red chimney
pots. The half-timbering, exterior
woodwork and trim are possibly
weathered chestnut, preferably
rough-hewn with adz marks show-
ing.
A tile roof of one of shingle or
slate should be in warm gray, in
which alenans, browns and oaks
are mingled.
The windows are casement type,
possibly in metal. Dark gray paint
is suggested. The large window at
the end of the living room is par-
ticularly worth notice, especially if
it overlooks a garden and gets the
sun from the south.
Entering the house through the
peaked entrance porch, the visitor
is charged by a large living room
which is unmistakably the center of
things.
Ahead is the fireplace, while on
one side of it is a door to the ter-
race. Ample window space lets in
the sun and assures ventilation
from three sides.
There is no dining room, but a
convenient alcove that suits all or-
dinary purposes. When guests
come, what more inviting place to
dine could there be than one end
of the living room?
Each of the two bedrooms has
six from two sides, the front one
being particularly desirable. The
bath is between and may be en-
tered from the rest of the house
without passing through either
bedroom.
The kitchen has light and air
from three sides. From it one
passes easily to the terrace, or the
cellar stairs. The commodious
alcove is reached by stairs over
these.
Designed to face the east, this
bungalow should be set back from
the street on a lot 80 by 150 feet
or larger.
Ranging from \$7,000 to \$8,000 in
estimated cost, the figure will vary
in accordance with owner's choice

COPPER-CLAD
Rangers are the great enemy of rust and steel. Unless you
protect them from the enemy they will rust and every kind of
rust will ruin them.
Range bodies—with one exception—will not rust. The reason
because the copper cladding is so thick that it will not rust.
When you buy a copper-clad range, you are buying a range of
copper construction. They have an inner wall, a layer of copper,
then the outer wall.
Every time a fire is built in the range, the intense heat
and the moisture in the air rust the steel wall. It is only a
matter of a few years before the wall is rusted through. Then
the range must be scrapped.
